What is my SOLIDWORKS serial number? What version and service package am I currently working on? You may have asked yourself these questions, or you should have known the answer to get technical support or run an update. This blog will show you how to find information about the SOLIDWORKS system for the current installation. NOTE: If you are looking for a serial number for the free trial of SOLIDWORKS then click here from SOLIDWORKS Help Menu You should start SOLIDWORKS, select the help menu and then choose About SOLIDWORKS... As shown in the picture below. Find SolidWorks Serial Number The About SOLIDWORKS Dialogue will be displayed where you can find all the information about your SOLIDWORKS package, either standard, professional or premium; as well as the number of version and service packages. Clicking on the Show serial number link, your solidWORKS serial number will appear. About SOLIDWORKS dialog From Registry Editor In case for any reason, SOLIDWORKS is not downloaded you can still find your serial number from the editor's registry. Click Windows Start and run regedit. The registry editor's window pops up. Use the next path to find your serial number: HKEY\_LOCAL\_MACHINE\Software\SolidWorks\Licenses\Registration Registration from Windows Control Panel One Another option will go to the control panel of the program and function, find SOLIDWORKS, and then right click and select the change setup. In the early stages of the installation change, the serial number that was entered when the software was first installed to replace or change will be shown. You can simply grab the serial number and cancel the installation manager. SOLIDWORKS Serial Number Set Manager www.cati.com uses security to protect against online attacks.
